

España, 29 August, 2019

To Ambassador of Republic  
of Ghana in Spain,  
H. Excellency Ms. Elizabeth Adjei  
And through Your Worthy Message  
To the Hon. Ghanaian People,  
To President, H. E. Mr. Nana Akufo-Addo,  
And to All Government Agencies:

-----  
c/Capitán Haya nº 38-~~10~~A <sup>3<sup>e</sup></sup>  
28020 - Madrid Tel: (+34) 91 567 03 90

By this document and to the corresponding effects, I would like to inform Your Government that there is an important multipurpose therapeutic alternative, excellent for those affected by various diseases, especially rheumatic ones and those caused by saprophytic bacteria (almost all the pathogenic ones), but it is also indicated in varying degrees of effectiveness in degenerative ailments of unknown etiology and many organic and traumatic dysfunctions. I believe that the positive monitoring, verification and application of this information will relieve the suffering of many thousands of Ghanaian citizens, setting an example to the world. Thus:

**I EXHIBIT**

1) There is a therapy with guarantees and certifications in Cuba, testimonies from health authorities in Mexico and researchers from Costa Rica, university students from Peru and individuals from all over the world, with which it is possible to CURE many ailments and PALLIATE others effectively, using Pyramidal Energy, which aside from theoretical discussions (all largely resolved by various researchers) works and is being applied for more than four decades. There are thousands of people who use pyramids to sleep in, and many therapists and doctors who use them every day in their offices.

2) That this therapeutic technology has a large number of other applications, the same results found in veterinary, beekeeping and agriculture, but in a strictly human matter, would provide the solution to almost all rheumatic and bacterial problems, with solution to a huge amount of ailments due to organic and osteoarticular system dysfunctions, and in most cases without the need of dangerous medication. Therefore, it is a piece of strategic information in the health policy of any country.

3) That pyramid therapy has vast advantages because:

- a) It is not invasive; it works thanks to the Earth's magnetic field.
- b) Does not waste electricity and is respectful of the environment.
- c) For any therapist or non-hospitalized individuals, it is easy to apply.
- d) In many diseases, it is much more affordable than current treatments, producing, among other effects the balance of the biomagnetic pair.
- e) It does not create dependency of any kind.

A handwritten signature in blue ink, appearing to be "Elizabeth Adjei".

The Pharmacy Cross represents Health and is a PYRAMID inscribed on a plane.

f) It lacks side effects in some forms of application and no risk in other applications by trained therapists or well-informed individuals.

g) Its bacteriostatic effect can fight even the "super bacteria" warned by scientists, with the anticipation of being the leading cause of death over any other. The pyramidal treatment allows the destruction of all these bacteria without the risk of selective strengthening or generation of new strains.

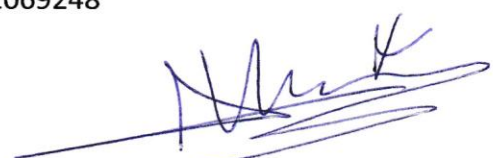

h) It is compatible with any other therapy and generally adjuvant to them.

4) To find more information, please refer to **www.piramicasa.es (spanish)** or **www.vitalpyramid.com (english)** where there are links to books, therapists, doctors from various countries, and clear technical information. I remain at your complete disposal, as a practical pioneer since 1973 in the use of Pyramid Energy, to collaborate with your government management, helping to design the most appropriate plan to do the rigorous scientific checks and then for mass application in the most effective and least expensive way.

5) I am not a therapist, but a manufacturer and builder of pyramids, I can advise you as I do with many professionals around the world, in order to create the conditions that allow the Excellent People of Ghana to benefit from these advances. Doctors and therapists from several countries have also told me that they are willing to collaborate in this campaign of mass dissemination and training of professionals, firstly for humanitarian reasons, secondly because of the need for Pyramidology as a scientific discipline and Pyramid therapy as an auxiliary discipline of medicine, and have its deserved recognition, which is inextricably linked to the previous.

6) For practical purposes, I am willing to negotiate with investors or agencies in your country in order to build housing-pyramids and manufacture others for various uses, after what is stated in this document is checked by Ghanaian scientists and the products are approved by your government administration.

Thanking all you do for this cause, I greet you respectfully and cordially:  
Marcelo Gabriel Silva - Argentina Passport AAE069248
